

# Visual Inspection Guidelines

## WHAT

**OK**  
No visible residue, soil and loose debris.

**NOT OK**  
Visible residue, soil and loose debris. Not cleaned.

### Plenum Technical corridor Ventilation tower

Examples top row: Close-up of cleaned fan with some oxidation of the metal vs uncleaned fan with CIPC residue.

Example bottom row: Plenum with CIPC application pipes; uncleaned plenum with CIPC residue underneath application pipe.

### Ducts

### Walls and structural framework

### Floors

Examples shown: Driveover concrete floor and wood-covered ducts with pavement.

# Visual Inspection Guidelines (back)
